

Introduction

Carl Gwilliam, Jan Kretzschmar

ATLAS Technical+Performance Meeting, 26.5.2010

UNIVERSITY OF
LIVERPOOL

General Issues

- Everyone should keep updating (or delete) information on our main Twiki <https://hep.ph.liv.ac.uk/twiki/bin/view/ATLAS/WebHome>
- New home page for this meeting:
<https://hep.ph.liv.ac.uk/twiki/bin/view/ATLAS/TechnicalMeeting>

Sharing of Work and “Expert Knowledge”

- People in our group will clearly benefit, if we manage to share knowledge better and do not duplicate efforts e.g. for OSCAR tools
- Explore the possibility of short presentations / oral reports here, today:
 - Monica: Jet/MET
 - Jan: egamma (mostly electrons)
- In general there was an idea to identify “experts”, who follow more detailed discussions anyhow and can summarise things of general interest:
 - tracking/b-tagging: Carl and Andy / Aaron
 - Jet/Etmiss: Monica / Sara
 - egamma: Photons: Helen; Electrons: Jan
 - Validation and software releases: Jan (?)
 - Muons: Joost (?)
 - GoodRunList+Lumi / Data Taking: ?
 - Anything or anyone else?
